MERIDIAN FACILITY SOLUTIONS

Capability Statement · Fairfield, California

Company overview

Meridian Facility Solutions is a Fairfield, California company that plans, manages, and inspects janitorial and facility services for public-sector facilities, public buildings, and commercial properties. Our approach is one point of accountability for your facility services: facility managers deal with one company instead of many. We confirm what the site needs, schedule the work, and check it against the written requirements. We plan to deliver services through vetted subcontractors under our management and quality control. We begin operations in January 2027.

Services

LAUNCH SERVICE

Janitorial & Custodial

Recurring cleaning for offices, public buildings, restrooms, break rooms, and common areas, built around your written scope and schedule.

COMING SOON

Facilities Maintenance

Routine upkeep and minor repairs through our vetted partner network.

COMING SOON

Groundskeeping & Landscaping

Mowing, trimming, litter pickup, and seasonal care for building grounds.

COMING SOON

HVAC & Building Systems

Filter changes and scheduled maintenance coordinated with licensed partners.

How we work

Scope. We review the statement of work and confirm tasks, frequencies, hours, and access rules in writing. **Assign.** We plan to deliver each task through vetted subcontractors under our management and quality control, and we set the schedule, supplies, and site contacts. **Quality control.** We inspect against the scope, track issues to closure, and report back, so you have one contact for every question.

Subcontractor network

We are building relationships with licensed, insured local firms that can perform janitorial and equipment services. Meridian does not employ its own crews: we match each task to a qualified subcontractor, manage the work, and stand behind the result.

Why Meridian

- **Single point of contact** for scheduling, issues, and reporting.
- **Written scope and quality inspections** so work is checked against what was agreed.
- **Local to Travis AFB and Solano County.**
- **Competitive, transparent pricing:** subcontractor cost plus a clearly stated management markup, with no hidden padding.

Service area

Solano County, Northern California, and nearby regions.

Leadership

Simeon Meehan, Founder. Simeon Meehan founded Meridian Facility Solutions after years of hands-on work in facility operations and commercial services across the Bay Area. He has operated industrial equipment, managed schedules and budgets, and coordinated with vendors and teams in his own work.
